

SURAJ GUPTA

Databricks Certified Data Engineer | Azure | Databricks | ADF & Synapse | Generative AI Engineer |
Fabric Data Engineer | PySpark | Streaming | Python | SQL | LLM | RAG | ETL

Guptasurajt98@gmail.com | +91 98923 62914 | Mumbai, India

 [LinkedIn](#)  [Portfolio](#)

Profile Summary

Senior Data Engineer with 7+ years of experience **designing** scalable data platforms on **Azure and Databricks**. Expert in building high-performance **batch and real-time** pipelines using **PySpark, Delta Lake, and Azure Data Factory**.

Additionally, recently expanded into Generative AI with hands-on knowledge of LLMs, RAG, AI Agents, Vector Search, and Prompt Engineering.

Key Skills

- **Data Engineering** : Databricks, Fabric, Spark Streaming, PySpark, Delta Lake, ADF, Synapse, ADLS, ETL
- **Generative AI Engineering** : LLM, RAG, AI Agent, Prompt Engineering, Vector Search, ML Flow
- **Programming** : Python, SQL, C#
- **Cloud** : Azure Cloud, AWS
- **Databases** : SQL Server, Oracle, MongoDB
- **Tool** : Git, Bitbucket, SVN, TFS, Jira, ServiceNow

Employment History

Capgemini - Senior Consultant (April 2025 – Present)

Client: Microsoft | **Project:** AWS → Azure Migration

- Migrated 50+ AWS Glue jobs to **Azure Databricks & Synapse**, reducing execution time by 35%.
- Re-engineered ETL processes using **PySpark** and **SQL** to ensure performance **optimization, scalability, and functional** equivalence on Azure.
- Designed **end-to-end batch pipelines** ensuring high data availability.
- Performed code **conversion, refactoring, unit testing, and data validation** to ensure accuracy and reliability post-migration.
- Improved data validation and resolved production issues.

Infosys Pvt Ltd - Technology Analyst (April 2023 – April 2025)

Client: Mercedes-Benz | **Project:** Data & Analytics

Note : Initially joined via Collabera (contract) and converted to full-time Infosys employee.

- Designed and implemented **end-to-end streaming and batch pipelines** using Medallion Architecture on Databricks.
- Built and maintained scalable ETL pipelines using **Azure Data Factory** and **Azure Databricks**, processing large-scale datasets for analytics.
- Developed data processing solutions with **Apache Spark (PySpark), Python, and SQL**, transforming raw data into curated datasets stored in **Delta Lake/Delta Tables**.
- Optimized data storage and query performance using **Delta Lake features** such as **Optimization, Z-Ordering, and Vacuum** for time-series data.
- Managed and monitored Databricks clusters, including capacity planning, performance tuning, debugging, data validation, and error handling.
- Migrated and ingested data **from on-premises SSIS** systems to **Azure Data Lake**, enabling cloud-based analytics.

Collabera Technologies Pvt Ltd - Software Developer (Feb 2022 – April 2023)

Client: Mercedes-Benz / Project: Data and Analytics

- Delivered data solutions on **Azure Cloud**, contributing to enterprise DNA platform for **Mercedes-Benz**.
- Designed and orchestrated scalable ETL pipelines using **Azure Data Factory** and **Azure Databricks**.
- Built and maintained ADF pipelines for data ingestion from multiple file formats using **Copy Activity and Data Flows**.
- Ensured data quality by troubleshooting data inconsistencies and resolving cross-source discrepancies.
- Monitored pipeline executions, handled failures, and optimized performance for reliable data processing.

Osource Global Private Limited - Software Developer (March 2020 – Dec 2021)

- Developed enterprise web applications using ASP.NET MVC, C#, and .NET.
- Built full-stack solutions with JavaScript, HTML, and CSS.
- Resolved issues to improve application stability and performance.
- Translated business needs into scalable technical solutions.
- Created business reports using Crystal Reports and RDLC.

Appeteria Technologies Pvt Ltd - Jr. Asp .Net Developer (March 2019 – Feb 2020)

- Developed user-friendly web applications, improving engagement and conversions.
- Built responsive UI using ASP.NET, C#, JavaScript, HTML, and CSS.
- Optimized backend performance using C# and T-SQL.
- Designed database objects (SPs, Views, Functions) for efficient data access.

Certifications

- Databricks Certified Data Engineer Professional
- Databricks Certified Generative AI Engineer Associate
- Microsoft Fabric Data Engineer Associate
- Databricks Certified Data Engineer Associate
- Azure Data Engineering (Cognixia)

Awards

- **Infosys Pvt Ltd** : Q4FY24 DNA RISE Award winner
- **Pragati College** : Blind Coding (Winner) Inter College Competition

Educational Qualification

- B.Sc. IT – 2018 - Mumbai University

Declaration

I hereby solemnly declare that information given above is true and complete to the best of my knowledge.
