Professional Objective

Databricks Certified Data Engineer with 7+ years of experience seeking a challenging role to design, develop, and optimize scalable data platforms and pipelines. Committed to delivering high-quality, reliable data solutions that support advanced analytics, business intelligence, and data-driven decision-making within a dynamic, forward-thinking organization.

Profile Summary

Senior Data Engineer with 7+ years of experience **designing** scalable data platforms on **Azure and Databricks**. Expert in building high-performance **batch and real-time** pipelines **using PySpark, Delta Lake, and Azure Data Factory**.

Proven track record of migrating enterprise workloads from **AWS to Azure**, **optimizing data processing performance**, and **delivering** reliable analytics solutions for large-scale business environments.

Key Skills

▪ Cloud & Data Platforms	: Azure Databricks, Azure Data Factory, ADLS, Synapse Analytics
▪ Big Data & Processing	: Apache Spark, PySpark, Spark Streaming, Delta Lake
▪ Programming	: Python, SQL, C# (ASP.NET), CSS
▪ Data Engineering	: ETL/ELT, Batch & Streaming Pipelines
▪ Databases	: SQL Server, Oracle, MongoDB
▪ Tool	: Git, SVN, TFS, Jira, ServiceNow

Certifications

➤ Databricks	: Databricks Certified Data Engineer Professional
➤ Databricks	: Databricks Certified Data Engineer Associate
➤ Collabera Cognixia	: Azure Data Engineering
➤ Infosys Pvt Ltd	: Azure Data Factory

Employment History

Capgemini - Senior Consultant (C1)

April 2025 – Present (Hybrid - Mumbai, Maharashtra)

- Migrated 50+ AWS Glue jobs to Azure Synapse and Databricks, reducing pipeline execution time by 35% and improving reliability during cloud transition.
- Re-engineered **ETL processes** using **PySpark and SQL** to ensure performance optimization, scalability, and functional equivalence on Azure.
- Designed and orchestrated end-to-end data pipelines in **Azure Synapse Analytics** for batch data processing.
- Performed code conversion, refactoring, unit testing, and data validation to ensure **accuracy and reliability** post-migration.
- Optimized pipeline performance, monitored executions, and resolved production issues during cloud transition.

Infosys Pvt Ltd - Technology Analyst

17 April 2023 – 21 April 2025 (Hybrid - Mumbai, Maharashtra)

Initially joined via Collabera (contract) and converted to full-time Infosys employee.

- Built and maintained scalable ETL pipelines using **Azure Data Factory** and **Azure Databricks**, processing large-scale datasets for analytics.
- Developed data processing solutions with **Apache Spark (PySpark)**, **Python**, and **SQL**, transforming raw data into curated datasets stored in **Delta Lake/Delta Tables**.
- Optimized data storage and query performance using **Delta Lake features** such as **Optimization, Z-Ordering, and Vacuum** for time-series data.
- Managed and monitored Databricks clusters, including capacity planning, performance tuning, debugging, data validation, and error handling.
- Migrated and ingested data **from on-premises SSIS** systems to **Azure Data Lake**, enabling cloud-based analytics.

Collabera Technologies Private Limited - Software Developer

10 Feb 2022 – 14 April 2023 (Remote - Varodra, Vadodara, Gujrat)

- Delivered data solutions on **Azure Cloud**, contributing to enterprise DNA platform for **Mercedes-Benz**.
- Designed and orchestrated scalable ETL pipelines using **Azure Data Factory** and **Azure Databricks**.
- Built and maintained ADF pipelines for data ingestion from multiple file formats using **Copy Activity and Data Flows**.
- Ensured data quality by troubleshooting data inconsistencies and resolving cross-source discrepancies.
- Monitored pipeline executions, handled failures, and optimized performance for reliable data processing.

Osource Global Private Limited - Software Developer

02 March 2020 – 15 Dec 2021 (Remote - Mahape, Navi Mumbai, Maharashtra)

- Developed and maintained enterprise web applications using **ASP.NET MVC, C#, and .NET Framework** for products including ONEXPay and Payroll Information Portal.
- Delivered high-quality front-end and back-end solutions using **JavaScript, HTML, and CSS**, ensuring performance and client satisfaction.
- Diagnosed and resolved application defects, implemented enhancements, and improved system stability and functionality.
- Collaborated with cross-functional teams and clients to translate business requirements into technical solutions.
- Designed and generated business reports using **Crystal Reports and RDLC** (monthly, yearly, tax reports)
- Utilized **SVN and Team Foundation Server (TFS)** for version control, code management, and release support.

APPETERIA TECHNOLOGIES PVT LTD - Jr. Asp .Net Developer

15 March 2019 – 14 Feb 2020 (Dombivli, Maharashtra)

- Designed and developed user-friendly websites, including optimized checkout flows that improved user engagement and conversions.
- Built responsive UI using **ASP.NET, C#, JavaScript, HTML, and CSS**.
- Enhanced application performance through backend optimization using **ASP.NET, C#.NET, and T-SQL**.
- Developed database objects including **Stored Procedures, Views, Functions, and Complex Joins** for efficient data access.
- Implemented e-commerce functionality with integrations to **PayPal Payment APIs and Google Maps API**.

Awards

- **Infosys Pvt Ltd** : Q4FY24 DNA RISE Award winner
- **Pragati College** : Blind Coding (Winner) Inter College Competition

Educational Qualification

➤ B.Sc. IT – 2018 - Mumbai University

Personal Profile

Father's Name : Mr. Tarkeshwar Gupta

Marital Status : Single

Birthday : August 22, 1996

Nationality : Indian

Religion : Hindu

Gender : Male

Language : English, Hindi, Marathi
